Join CEATI's Women in Power Group on July 25th, 2017 at 1pm ET:

Women in Power ~ Inaugural Webinar

Featured Speaker: Lisa Johnson, CEO of Seminole Electric Cooperative

On July 30, 2013, Lisa D. Johnson began serving as Seminole's sixth Chief Executive Officer and General Manager. As Seminole's CEO, she is responsible for overall Cooperative operations. She reports directly to Seminole's Board of Trustees.

Prior to joining Seminole, Johnson served as senior vice president and chief operating officer of Old Dominion Electric Cooperative (ODEC) in Glen Allen, Va. Johnson

joined ODEC in 2006 following an 11-year tenure with Mirant Corporation and Southern Company.

Johnson holds a Bachelor of Science degree in mechanical engineering and materials science from Duke University. She serves as Vice Chair of the Florida Reliability Coordinating Council, Vice Chair of the Florida Electric Power Coordinating Group, a Director and a member of the Executive Committee on the Board of the Florida Electric Cooperatives Association, a Director on the Board of the Electric Power Research Institute and Chairman of its Governance and Nominating Committee, as First Vice-President of the National G&T Managers Association, and was named one of Virginia's most "Influential Women" in 2012.

Points of Discussion:

- Introduction, including background, career path, and where she is now
- Challenges she has faced and how they were overcome
- Who inspired her as she was choosing her career path?
- Looking back, what could she or her mentors have done better or more of to help?
- How can we impact changing the culture in the industry going forward?

Seminole Electric Cooperative is one of the largest generation and transmission cooperatives in the country. Its mission is to provide reliable, competitively priced, wholesale electric power to its nine, not-for-profit, Member-owned distribution electric cooperatives. Approximately 1.6 million people and businesses in parts of 42 Florida counties rely on Seminole Member cooperatives for electricity. Seminole's primary resources include the Seminole Generating Station (SGS) in northeast Florida and the Richard J. Midulla Generating Station (MGS) in south central Florida. Seminole also owns and maintains more than 350 miles of transmission line.

Group Mandate & Objectives:

- Networking with other women in the industry;
- Promoting engineering to women in the field, especially to new engineers and those just starting out in their career;
- Sharing common challenges and strategies for overcoming obstacles as females in a male-dominated field;
- Brainstorming together to identify common patterns and develop new strategies for educating colleagues/superiors on how to successfully encourage and support females in the field

Upcoming Events:

July 25, 2017: Women in Power ~ Inaugural Webinar

Featured Speaker: Lisa Johnson, Seminole Electric Cooperative

August 28, 2017: Women in Power Webinar

Featured Speaker: Carol Wright, Jackson Energy
